#002 - April 2008

### From the Desk of the FCSN Afterschool Program Co-ordinator

Dear Parents,

Hope you and your kids had a great Spring break and enjoyed this time from your routine.

In the March Cooking Class, the kids had fun preparing Chicken Nuggets, Turkey Meatballs, Ice Cream Muffin etc. There are lots of kid friendly recipes on the internet that you could try out with your child as a family and enjoy during weekends or school breaks. It will be a nice bonding time.

Some of the kids are getting better at trying new healthy foods and thereby developing their taste buds.

Fridays are more relaxed for the kids in our program. They learn educational stuff in a fun way during study skill time. This month, on Fridays, we will be learning about spring and life cycles of some living things.

#### Easter Celebration:

Kids had fun going on an Easter egg hunt in our backyard. They had a nice time listening to their favorite story *'The tale of Peter Rabbit'* with the moral "Obeying parents/teachers". They enjoyed playing bean bag toss in the backyard, blowing and chasing bubbles. What could be a better way to start spring?

#### A Note of Thanks!

Thanks to those parents who sent spare T-shirts for their kids for use in arts and craft class and a friendly reminder for those who haven't, to please send one to avoid paint stains on their clothes.

#### Important Date:

April 22 Earth Day

We will be learning about Water Cycle and classification of recycles and trash on 18th April.

#### Reminder!

Please go over your child's weekly report and give him/her a whole lot of praise for the good points and encourage him/her to work on the bad ones.

#### Tips to help kids enjoy spring:

Encourage kids to do some gardening or watering your garden. Look for earthworms together or go on a bug hunt in your backyard.

Have a wonderful spring!
